

David Chevers

I LOVE to play with my voice. I've been working as a voice artist for the past 15 years in Spain and South Africa. I've dubbed foreign films into English, told you to watch Rakuten tv, and even how to wash your hands at Burger King. I've lent my voice to various animated projects including The Flying Squirrels and Tin & Tan in various accents including American British Australian and South African. Ek praat ook Afrikaans y tambien un poco castellano a little Spanish too;)
